

Happy New Year!

Come and join EPIA at this year's events

### **SET For 2020: Establishing the Solar Europe Initiative**

11 February, Brussels, Belgium

Held within the framework of the [European Union Sustainable Energy Week \(EUSEW\)](#). Presents the state-of-the-art work carried out by the Photovoltaic (PV) sector in the definition and implementation of the Solar Europe Initiative within the SET-Plan. [More info](#)

### **Photovoltaic Network Integration: Challenges and Opportunities**

13 February, Brussels, Belgium

Held within the framework of the [Sunrise Project](#) and the [EUSEW](#). Provides a forum for constructive dialogue between the PV industry and the utilities on how the integration of solar PV systems into the European electricity supply can be managed in a win-win situation for all parties. [More info](#)

### **EPIA Annual General Meeting (AGM) & 4th Workshop on Market Potential and Production Capacity**

19-20 March, Frankfurt, Germany **EXCLUSIVE TO EPIA MEMBERS!**

EPIA's Annual General Meeting will be an opportunity to further evaluate and discuss the challenges of the Association and Industry, including important topics such as EPIA's future development.

The workshop will discuss the market trends for the upcoming 5 years, within our global roadmap to 2020.

### **3rd International Conference on Solar Photovoltaic Investments**

7-8 April, Frankfurt, Germany

Addresses both the PV industry and the financial sector in order to set the basis for fruitful cooperation between those two communities. Will review recent PV market trends and industry developments and explore the best financing instruments. More information will be available shortly.

## **General Assembly (GA) of the European PV Technology Platform**

19 June, Vienna, Austria

Allows the development of action plans in areas where cooperation between the different stakeholders of the sector are key to ensuring Europe's leadership in the long term.

## **24th European Photovoltaic Solar Energy Conference (24th EU PVSEC) including the 6th PV Industry Forum**

21-25 September, Hamburg, Germany

The "who's who" of the PV Solar branch will meet to discuss the latest developments in science and industry.

The 24th EU PVSEC is organised by WIP. There is a close institutional cooperation with EPIA in different fields of the event. [More info](#)

## **2nd EPIA International Thin Film Conference**

12 November, Munich, Germany

Presents the state-of-the-art of PV Thin Film and offers an excellent opportunity to network with Thin Film's most knowledgeable experts.

## **5th Workshop on Market Potential and Production Capacity**

15 December (tbc), Frankfurt, Germany **EXCLUSIVE TO EPIA MEMBERS!**

Addresses EPIA members on the market and production trends for the upcoming years.

### **Willing to give full visibility to your company during our events?**

EPIA conferences are key meeting places for the CEOs of PV companies, EU and national policy makers, analysts and investors to come together and discuss the future of our industry.

Our events provide an excellent opportunity to widely promote your brand and expertise to the most relevant audience. The EPIA team are happy to help you choose the event and sponsorship option that's right for your company's communication strategy
