

“Creating conditions for Solar Photovoltaic to go large”

2nd Round table, 4th July 2007

“Feed-in Tariff: the best support mechanism to promote solar electricity?”

Programme:

Moderator: Daniel Guéguen

12.00-12.10 Presentation of Round table participants

12.10-12.30 Introduction:

- **Feed-in tariff: the most effective support mechanism to promote solar electricity** – Cornelia Viertl, BMU, German Ministry for the Environment
- **Harmonisation of support schemes?** Claude Turmes, Member of the European Parliament, ITRE Committee

12.30-13.00 Round tables panellists:

- European Commission – Pekka Järvielto, DG Environment
- Council of the European Union
 - Germany: Cornelia Viertl, BMU, German Ministry for the Environment
 - Spain: Maria Jesus Onega Coladas, Counsellor for energy, Spanish Permanent Representation to the EU
- European Parliament – Claude Turmes, ITRE Committee
- Industry – Eleni Despotou, EPIA General Secretary
- Utilities – Frédéric Jouve, R&D programme Director, Electricité de France
- Journalist – Hughes Belin

The participants will elaborate on:

- Is the feed-in tariff effective and what are the alternatives?
- Harmonisation of support schemes or not?

13.00-13.30 Discussion

13.30-13.35 Conclusions

13.30-14.15 Lunch

After the lunch a tour of the “Renewable Energy House” is offered to the participants.

The debate is free of charge!

Location: Renewable Energy House, Rue d’Arlon 63-65, 1040 Brussels
